

Table with 20 columns: 2018, 2017, 2016, 3-year average, School, Country, Preparation, Programme design, Teaching methods & materials, Faculty, New skills & learning, Follow-up, Aims achieved, Facilities, Value for money, Future use, International clients, Overseas programmes, Growth, Partner schools, Faculty diversity, Total Responses.

Table notes

Although the headline ranking figures show changes in the data year to year, the pattern of clustering among the schools is equally significant. About 385 points separate the top school, Iese Business School, from the school ranked number 90. The top 14 business schools, from Iese to Fundação Dom Cabral, form the top group of custom providers. The second group, which is led by MIT: Sloan, includes 65 schools. The third group of 11 schools is led by Frankfurt School of Finance and Management.
