Table notes

Although the headline ranking figures show the relative positions of each institution, the pattern of clustering among the schools is equally significant. Some 217 points separate the top programmes, HEC Paris, from the school ranked number 30. The top 9 participants, from HEC to Skema Business School, form the top group of pre-experience Masters in Finance providers. The second group, headed by EMLyon Business School, spans schools ranked from 10 to 19, a range of some 30 points in total. Differences between schools are small within this group. The remaining 11 schools make up the third group.
