**Table notes**

Although the headline ranking figures show changes in the data year to year, the pattern of clustering among the schools is equally significant. Some 210 points separate the top school, HEC Paris, from the school ranked number 50. The top 7 business schools, from HEC Paris to EM Lyon, form the top group of Masters in Management providers. The second group, headed by Rotterdam School of Management, spans schools ranked 8th to 20th, a range of some 28 points in total. Differences between schools are small within this group. The 14 Schools within the third group are similarly close together. The Copenhagen Business School, which heads this group, is some 10 points below the bottom school in the group above. The remaining 15 schools make up the fourth group.
